S P C CHARACTERISTICS

100% VIRGIN MATERIAL

SPC floor's main raw material is high quality PVC resin, it is environment-friendly and renewable resources; does not contain harmful material. No soluble volatile matter, no radiation.

ANTI-SKID

SPC floor have a speial wear-resising layer of the floor and compared with common floor material, our SPC floor has higher friction when it is wet in which it meets the safety requirements and so on.

WATER RESISTANT

The main component of SPC flooring is Vinyl Resin, which has no compulsion with water. And mildew will not occur because of high humidity.

NOISE REDUCTION

SPC floor has a very high sound-absorbing capacity. There is no comparison, so in need of quiet environment such as hospital wards, libraries, etc. Royal Floor SPC floor being your first choice

BEAUTIFUL & EASY TO INSTALL

SPC flooring uses an advanced technology; click lock technology which has a clean finish when the installation is done.

FIRE RETARDANT

SPC floor fire rating is grade Bf1. Flameretardant, not spontaneous combustion. And this type of flooring does not produce any toxic or harmful gases.
